1. Your response states that the information provided is indicative of information management considers in determining the extent to which non-US earnings will be returned to the US. Please provide us copies of all the documents that support your reinvestments of undistributed earnings to date and your specific plans for reinvesting your undistributed earnings in excess of \$4B such that none of those earnings will be returned to the parent company as we requested in our March 19, 2014 letter. Please also tell us how the information in the other documents is considered in your analysis.

 - Please tell us the material assumptions and variables used to develop the information provided in the response and why those assumptions and variables are reasonable;
 - Please tell us, specifically, how management uses the information provided in the response; and
 - Please tell us, specifically, how the information provided in the response substantiates management's assertion that non-US earnings in excess of \$4 billion will not be returned to the US and will, instead, be permanently reinvested in your foreign operations.
